Now that it's fall, it's time to tuck into my studio in Minnesota and get excited about the winter work that is planned. My studio was doubled in size over the summer, giving me a fabulous space to set up four to five pieces at a time with a separate area for production work. It took me three days to move in, but I am ready to move forward.

I just returned from an informative seminar in NYC. The art-collecting game has changed in light of these economic times and it was interesting to get a view of what the connoisseur collector experiences. I visited fabulous galleries, was invited into several prominent gallery owners' homes, visited several artists' studios, museums and was privileged to attend a lecture by George McNeely, Senior Vice President at *Christie's* on "Demystifying the Auction Process." It was quite eye opening!

Speaking of New York, *Three White Buoys*, featured above, was purchased recently by a New York client and is hanging in his Manhattan apartment. I am currently working on paintings for an exhibition in Minneapolis later this fall; watch for details coming soon.
